

Hello families,

Each year we ask that parents create a "comfort kit" for each of their children that they will have at school in case of an emergency. This kit will be kept in a tupperware bucket in a storage room on the exterior of the school so that we can gain access to it if there is an emergency situation. You can use your child's comfort kit from year to year just refresh the perishable contents!

As we are storing almost 500 comfort kits we ask that you only put the following items into your child's Ziplock bag. **Please label the bag with your child's first and last name and division.**

- Thermal Emergency Blanket (the tinfoil ones from the dollar store are perfect)
- Four (4) compact and nutritious pre-packaged snacks (fruit bars, granola bars, etc.) with the expiry date to at least June 2017 **(please do not include products that contain nuts or peanuts as some children are extremely allergic).**
- 12 Hour Emergency Light Stick or small flashlight.
- A rain poncho
- Five Band-Aids
- A soft touque
- A pair of mittens
- A pair of socks
- Two (2) mini Kleenex pocket packs
- a **small** toy
- a reassuring letter/note from you
- a family picture

Water is **not** necessary as the school has a supply of water for emergency purposes.

Please collect these items as soon as possible and return to your child's teacher.

Thank you  
Ms. Jaggi
